Lepidoptere colectate din Galileea, Provincia Afula – Israel în perioada 1998 – 1999

Levente SZÉKELY

În ultima perioadă am primit peste 500 de lepidoptere colectate în Galileea, Israel de către TILBAȘA Cornel (Brașov) în perioada februarie 1998 - noiembrie 1999. Aproximativ 75 % din material aparține macrolepidopterelor, iar în urma determinărilor am identificat 54 specii. Mulțumesc D-lui, Dr. RONKAY László (Budapesta) pentru ajutorul acordat la determinarea unor specii de Noctuidae.

Summary

Lepidopterans collected in Galilee, province Afula, Israel, in the period of 1998-1999

Lately I received over 500 lepidopterans collected by TILBAȘA Cornel (from Brașov) in Galilee, Israel, in the period of February 1998 – November 1999.

Approximately 75 % of the material belongs to the macrolepidopterans, and as a result of the determinations we identified 54 species.

I thank Dr. RONKAY László (Budapest) for the rendered help in the determination of some species of Noctuidae.
